

## Etac Molift RgoSling HighBack Slings

Built-in ergonomomy for comfortable hoisting, the Etac Molift Rgosling HighBack is an all-round sling that fits most users and hoisting situations, by providing support for the body and head. It allows the user to have a slightly inclined position which is suitable for users with impaired trunk and head stability. It is especially suitable for hoisting to and from a lying position and hoisting from the floor. Available in padded and net version. The net version is especially suitable for shower and bathing situations.

### Technical Specifications

**Sizes available:** XXS-XXL

**Available in:** padded and net fabric

**Colour:** Grey / Red

### Features

- All round sling that fits most users and hoisting situations
