

## Hammock Sling Slings

The Hammock Sling is available in three sizes, with a choice of fabric or mesh and a commode hole. The sling incorporates a head support and a unique strap system that keeps the patient secure, which helps to reduce friction and allows for easy placement and removal around a person in a sitting, semi-reclined or fully reclined position, without having to lift manually. Recommended for general lifting including bathing.

### Technical Specifications

**Sizes:** S-L

**Colour:** Teal

**Material:** Fabric or mesh

### Features

- Allows for easy placement & removal around a patient with reduced friction
- Recommended for general lifting including bathing
