

ROPIMEX RTH

Privacy Curtains and Screens

This model is a telescopic arm with hooks, folding down and swiveling. In connection with a height-adjustable ceiling mount RST, the longest telescopic arm ROPIMEX RTH can be used to achieve a screening length of 350 cm. Using the RTH models and the ceiling mounts, you can divide each room as you wish.

Features

- Turns large spaces into private divisions in moments
- Simple and easy to use with many varying installation features to suit every situation
- Optional curtain styles and colours to match or brighten any room
