

Stretcher Lift ADAM!

Accessible Baths & Equipment

The Stretcher Lift ADAM! perfectly combines unique modern design and maximum functionality. The stretcher lift allows patients to be lifted safely, reducing strain to carer's backs. It also allows the patients to be secure, with side padding to prevent rolling. The modern design of Stretcher Lift ADAM! makes it a popular choice for residential care, supported accommodation and aged care facilities.

Features

- Lockable wheels for securing the stretcher lift in place
- Remote control for easy operation
- Easily height-adjustable
- Side padding to prevent rolling that can be shifted for entry and exit of patient
- Handles on both sides
- Foldable for compact storage
