

CHS Piggyback Rail

Rail Systems & Accessories

The CHS Piggyback rail is combined with CHS Slimline rail to provide additional strength for increased spans and SWL. Depending on the requirements, it can be fitted as single or double Piggyback. It may also be fitted between XY parallel rails, thus saving lift height and improving overall appearance.

Technical Specifications

- Height: (Single) 168mm
- Height: (Double) 260mm
- Width: (Single) 58mm
- Width: (Double) 58mm

Features

- Suitable for systems with long spans or large SWL
- Compatible with CHS Slimline Rail
