

Easy Track FS (200kg SWL)

Free Standing System

The EasyTrack FS is a free standing, versatile solution for all types of point-to-point transfers - wheelchair to bed, bed to chair, bathroom transfers or almost anywhere there is a lift and transfer need. EasyTrack FS has a safe working load of 200kg. Along with its height adjustable posts and the extendable rail which will span up to 3 metres, EasyTrack FS is ideal for almost any home. The Easy Track FS is designed to allow those with a mobility impairment the means to live at home and enjoy many of their normal activities.
