

Prism Medical P600

Portable Hoist

The Prism Medical P600 is specifically designed for environments where the demand for higher weight capacities is a reality. With the use of our floor transport trolley, this hoist can be moved from room to room reducing the initial investment for facilities. The innovative design allows the client to be lifted comfortably using the folding carry bar. The P600 portable ceiling hoist has a weight capacity of 274kg, making it suitable for the institutional environment.
