NOMAD

Moist Nomad  
Gross weight: 255 kg  
Net weight: 204.4 kg  
Duty cycle: 10%

**CHS HealthCare**  
We're Here For You

**DUAL LOCKING GEARS:**  
Additional fail safe system

**SAFE:** NATA laboratory independently tested to 300kg safe working load

**STRAP:** Designed for the average ceiling height of 2700mm

**STAINLESS STEEL DUAL ACTION BUCKLE RELEASE:**  
Co-ordinated pressing required for release. WILL NOT release if one side pressed only or under load.

**BALL BEARING SWIVEL:**  
Patient can be rotated through 360 degrees once lifted

**TROLLEY:** designed to work with most CHS rail system including curves & turntables

Large internal gearing provides an easy wind ball chain

12.5kg magnet separation strain on the ball chain reduces risk of patient self harm

8mm ball chain design improves grip for carers

**RETENTION MAGNETS:** On both sides of the machine to keep the pull chain away from carers and patients during lifting and lowering

Suits all CHS portable hoist units

### Patented Connectus System as simple as 1,2,3...

1. Using Connectus ballchain lower the strap to your desired height.
2. Connect portable hoist with swivel buckle to the Connectus strap and rewind strap to the ceiling.
3. Portable hoist is now ready for use. As no pole is in place, carers can move about freely and travel of hoist is not impeded....
