

# FOLDSMART ELS

# ELEVAND FOLDSMART ELS

The Elevand FoldSmart ELS is a simple-to-operate lift designed for users weighing up to \*160 kg. This mobile patient lift features an electric leg spreader and supports a variety of hanger bars, including fixed, manual, and electric options. The compatible hanger bars include fixed 2-point bar and either fixed, manual or \*electric 4-point bars. The big advantage of the Elevand FoldSmart ELS is its foldable design, making it easy and compact to store. Additionally, its large battery allows for approximately 35 complete lifting and lowering cycles on a single charge, even with the maximum load. This lift is ideal for home care, nursing homes, and rehabilitation centres.

\*SWL with electric 4-point spreader bar = 120kg

## FEATURES

### Maximum Safe Working Load

160kgs with 2 & 4 point spreaders  
120kgs with Electric 4 point spreader

### Battery Operation

Supports dozens of lifts  
in a single charge
