

# ELEVAND FOLDSMART

# ELEVAND FOLDSMART

The Elevand FoldSmart is an easy-to-use, compact patient lift designed for full-body suspension of immobilized individuals. Its small size and excellent manoeuvrability make it ideal for use in smaller rooms. A key advantage of the Elevand FoldSmart is its ability to fold down, making it easy to store. Its relatively low weight and compact folded size allow it to be conveniently packed into a car's boot or trunk for transport to different locations. The lift's large battery supports multiple lifting and lowering cycles without frequent recharging. The Elevand FoldSmart is suitable for use in-home care, nursing homes, rehabilitation and respite centres.

## FEATURES

## TECHNICAL SPECIFICATIONS

Base leg spreading	Mechanical	Lifting Speed (raising/lowering)	35s/23s
Max. safe working load (SWL) (Kg)	160	Power req./Charger	100-200V/50-60Hz
Length/ Width (cm)	127/62	Remote control functions	Up/down
Height (cm)	134		Battery charge status
Lifting range(cm)	71-192		Overload indicator
Min.turning diameter (cm)	138	Packed Dimensions (LxWxH)(cm)	140x80x62
Min.base legs width (int./ext.)(cm)	45/62		
Max.base legs width (int./ext.)(cm)	80/94		
Base legs height (cm)	9.5		
Castors diameter (cm)	7.5		
Weight (kg)	39		
Battery Capacity	2.2
