

ELEVAND TRAVEL GANTRY SYSTEM

The Elevand Travel Gantry System is a free-standing, versatile solution for various point-to-point transfers, including wheelchair to bed, bed to chair, and bathroom transfers. Travel GS supports a safe working load of 200 kg. Featuring height-adjustable posts and an extendable rail with a span of up to 3 meters, Travel GS is ideal for almost any home. This system is designed to enable individuals with mobility impairments to live at home and enjoy many of their normal activities.
