

# TILTSMART COMFORT ELS

# ELEVAND TILTSMART COMFORT ELS

The Elevand TiltSmart Comfort ELS stands out with its robust design, tailored to support patients weighing up to 230kg. This lift is perfect for use in hospital wards, rehabilitation centres, nursing homes, and home care environments. Equipped with an electric hanger bar, it offers seamless and accurate adjustments during patient transfers. The electrically adjustable base leg spread provides excellent manoeuvrability, making it easy to position the lift as needed. This lift combines strength, user-friendliness, and efficiency, ensuring superior safety and comfort for both patients and caregivers.

## FEATURES

### Reinforced Construction

Capable of lifting patients up to 230kgs (bariatric)

### Battery Operation

Supports 20 complete lifting and lowering cycles on one charge (with max. load of 230kgs)

### 4-Point Electric Pivot Frame

Smooth inclination adjustment of the 4-point electric pivot frame via remote control allows the user to adjust the patient's position from laying to seated

### Electric Base leg spreading

**Maximum Safe Working Load**  
230kgs

## TECHNICAL SPECIFICATIONS

Base leg spreading	Electrical	Lifting Speed (raising/lowering)	36s/34s
Max. safe working load (SWL) (Kg)	230	Power req./Charger	100-200V/50-60Hz
Length/ Width (cm)	130/67	Remote control functions	Up/down
Height (cm)	135		Elec. leg spread
Lifting range(cm)	68-196		Outside/inside
Min.turning diameter (cm)	144		Battery charge status
Min.base legs width (int./ext.)(cm)	52/67		Service indicator
Max.base legs width (int./ext.)(cm)	103/118		Overload indicator
Base legs height (cm)	11.5	Packed Dimensions (LxWxH)(cm)	150x80x155
Castors diameter (cm)	10		
Weight (kg)	66		
Battery Capacity	2.9
