

JUNIOR CHANGE TABLE

ELEVAND JUNIOR CHANGE TABLE

The Elevand Junior Change Table is designed and manufactured in Australia for use in schools, disabled accommodations, sports facilities, and special needs centers. It features a 1250mm long top, extendable to 1650mm with fold-down cot ends. The twin-column design ensures stability with no lengthwise movement during height adjustments, enhancing safety by eliminating the typical 'swing-arm' construction. The table's height adjusts from below 450mm to 950mm, allowing independent transfers from wheelchairs or hoists, with 155mm clearance for hoist access. Carers can easily set the optimal working height using the foot control. Standard features include one cot side and two generously upholstered cot ends for client security. The table is equipped with four individually braked wheels, including one with a directional locking brake, for easy and stable movement. No Australian GST is payable on Change Tables.

FEATURES

Standard Configuration

- Wedgewood upholstery
- Foot control

Factory Fitted Options:

- Vinyl top color option
- Hand control
- Battery addition
- Second upholstered cot side
- Strap bar (included with cot sides)
