

# M. SILVALEA PARASILK SLING

Available in sizes XS - XL this full body supportive sling is used for general transfers. Made from fine, soft parasilk fabric this sling slides smoothly under the patient and prevents pressure areas.

A very thin material incorporating Coolmax fabric that is designed to move moisture away from the body and enhance fabric drying rate thus keeping the user feeling cool and dry. It has a slip resistant panel on the back.

Load capacity 165kg

**Recommended for patients with sensitive skin conditions.**  
**Colour: Navy Blue**

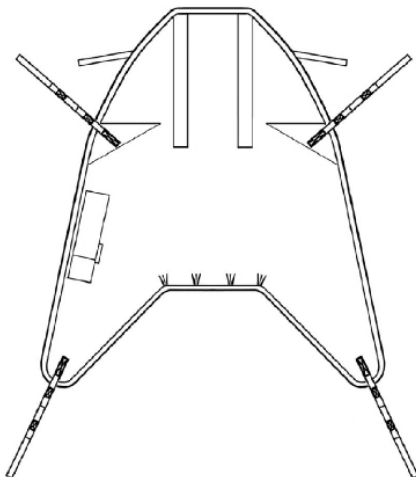

## FEATURES

- In Situ Full Body Patient Transfer Sling with divided leg
- Adjustable integral head support with removable stiffeners
- Easy to apply with low friction fabric to leg areas and head support for ease of application
- Soft binding as standard

# SILVALEA PARASILK SLING

## NOTES:

These measurements reflect the In-situ design of the sling stated.

On some materials the darts/ tucks may not be present as shown on the drawing.

Measurements given are for guidance only. Width measurements are taken at the shoulder level.

Depending on material and weight of user a little stretch may occur as the sling moulds to the user's body shape.

**\*Optional grab handles available**
