

Over Bath Wall Mounted Stretcher

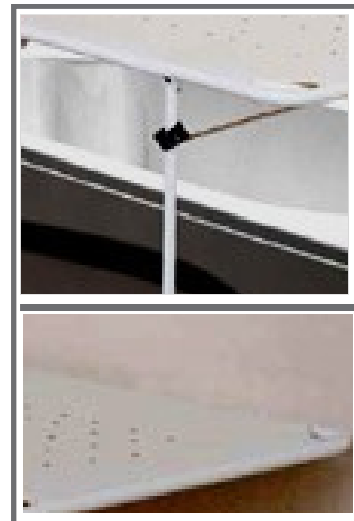

Highlights:

- Space saving solution - stows just 100 mm from the wall
- 130 kg Maximum Working Load Choice of stretcher lengths 1200- 1900 mm
- Hammock stretcher anti-microbe treated and fully drainable
- Self folding legs; safety catch for stowage

The Astor OB (Over Bath stretcher), designed for use with fixed height baths, is a simple space-saving solution to changing.

The frame is made from rust-proof stainless steel and the stretcher from non-rip, high-tension vinyl, treated with anti-microbial protection and drainage holes. Sturdy adjustable support legs fold down automatically when the stretcher is lowered, while the complete unit folds up against the wall when not in use, held in place by an automatic locking system. The Astor OB is available in a range of sizes from 1200mm to 1900mm x 800mm, or can be made to individual requirements.

Whilst designed to be fixed over a bath, this stretcher can also be fixed elsewhere in a bathroom at a comfortable working height for the caregiver, making it a versatile care bench for bathrooms and wet rooms.
