Fold-Down & Swing-Out in Seconds

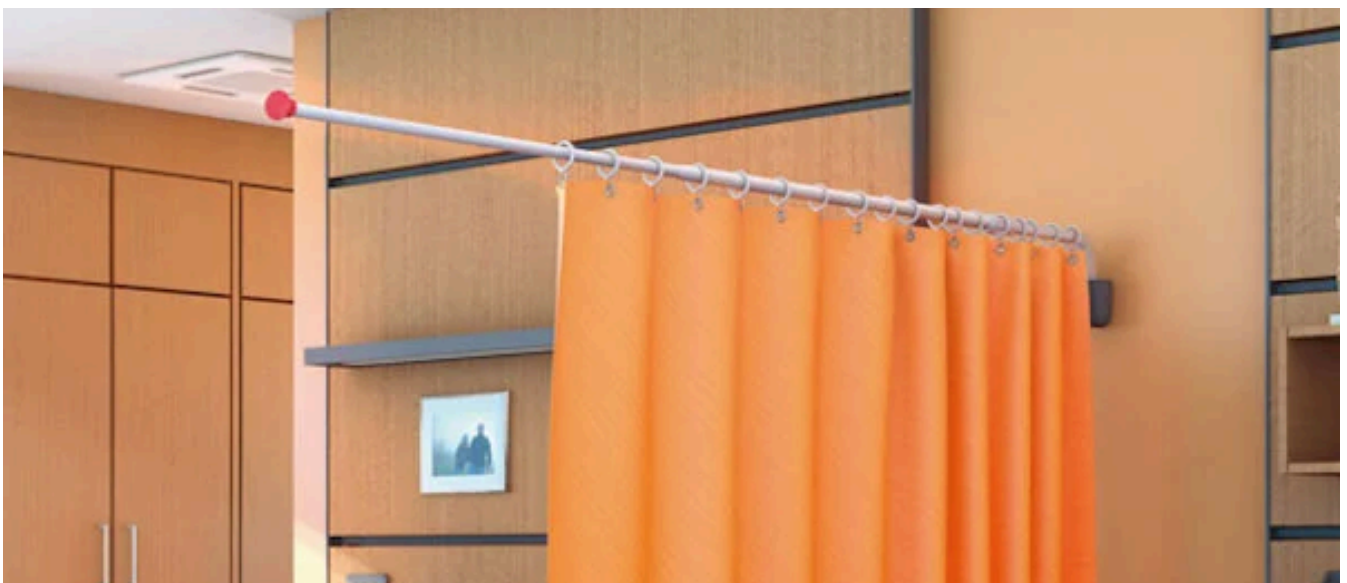

The Ropimex® RTI telescopic arm combines a fold-down joint with a 90° swing-out action — engineered in Germany and exclusively distributed throughout Australia by CHS Healthcare.

Ideal for the multi-bed room and intensive care unit, one RTI screen can be used to screen off several beds that have been previously fitted with wall brackets. Self-supporting, with no ceiling fixing required.

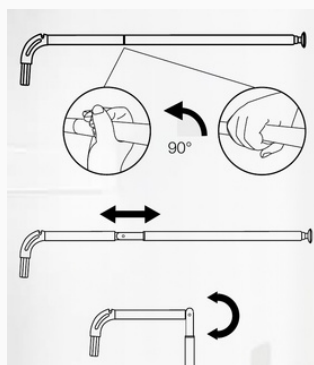

Key Features

- **Fold-down and swing-out**, self-supporting — no ceiling mount required
- Bending mechanism seamlessly integrated for a hygienic, crevice-free surface
- Integrated stop mechanism holds the curtain rings securely in place
- Three lengths: **RTI 1.3**, **RTI 1.6**, **RTI 2.2**
- Curtain rings release themselves from the eyelet if overloaded, avoiding injury and system damage
- CE marked medical device · anodised aluminium and glass-fibre reinforced plastics
