Tried & Tested for 20 Years

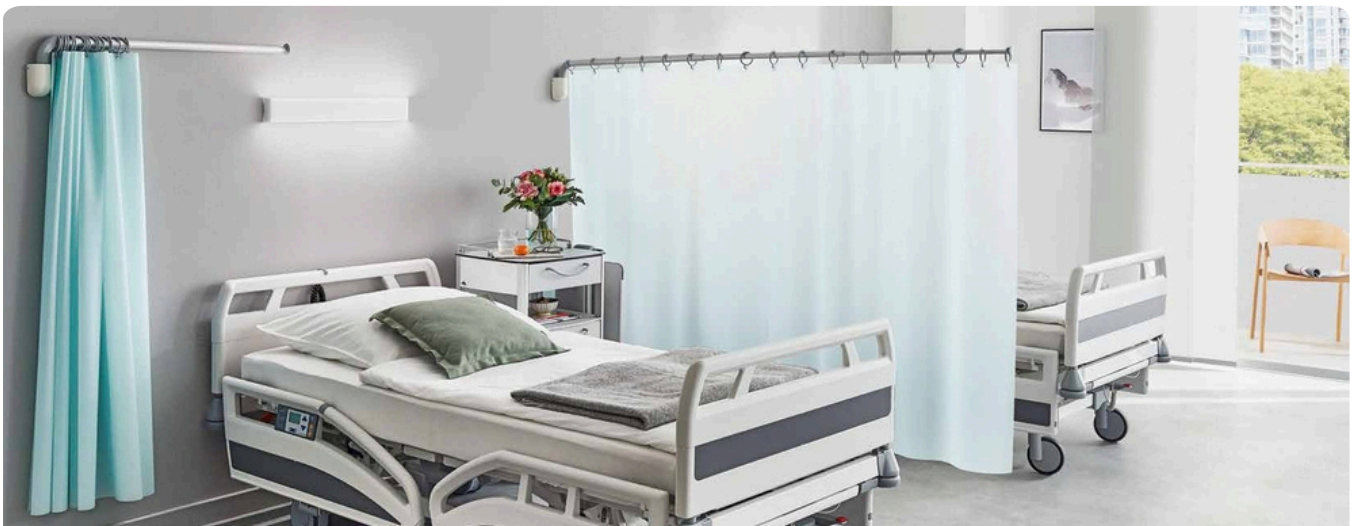

Ropimex®-curtains made of **Trevira®CS Bioactive** have been tried and tested for 20 years — engineered in Germany and exclusively distributed throughout Australia by **CHS Healthcare**.

The fire resistance is indelibly anchored in the fabric's molecular structure, meeting fire class **B1** (DIN 4102 Part 1) and **B-s1 d0** (DIN EN 13501-1). Trevira®CS Bioactive is permanently anti-microbial — the protection does not wash out over the fabric's lifetime, even after repeated laundering at 60°C.

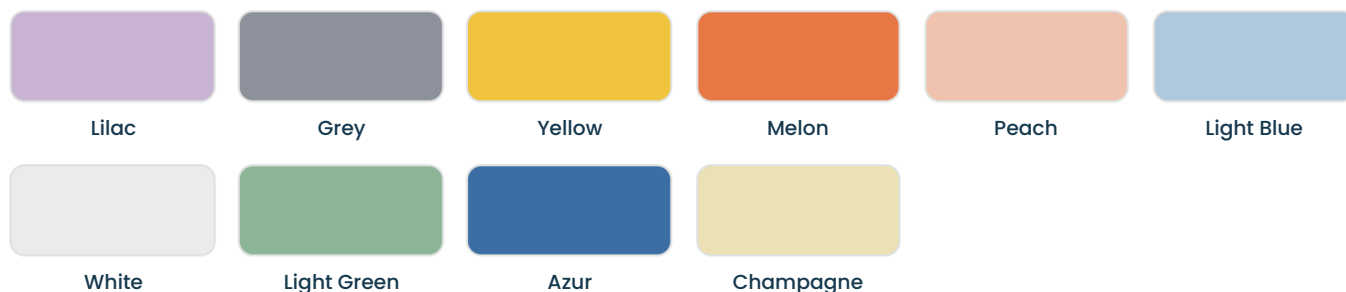

Key Features

- **100% Polyester**, permanently flame-retardant
- Fire class **B1** (DIN 4102 Part 1) and **B-s1 d0** (DIN EN 13501-1)
- Permanently **anti-microbial** — protection indelibly anchored, does not wash out
- Permeable to daylight — ideal where several partitions share a room
- Light-fast, dimensionally stable, crease-resistant, long service life
- Certified to **Oeko-Tex® Standard 100** · fabric weight ca. 115 g/m²
