 **CHS Healthcare®**
We're Here For You

Built for Showers & Sanitary Blocks

VH/C ropimex®-curtains made of staph CHEK® are the fabric of choice for showers, bathrooms and sanitary blocks — engineered in Germany and exclusively distributed throughout Australia by CHS Healthcare.

A sustainably integrated active antibacterial component is built into the fabric (see illustration), keeping the curtain stable, compact and skin-friendly — it does not stick to the body even when wet. Where careful laundering cannot be guaranteed, staph CHEK® simply wipes down with a sponge and household cleaner.

Sustainably integrated: active antibacterial components woven through the fabric.

Key Features

- **Stable and compact**, anti-static — ideal for shower and sanitary environments
- **Anti-bacterial**, flame-retardant to fire class **M2**
- **Impervious to liquids**, skin-friendly, does not stick to the body
- Staining- and soiling-resistant, simply wipe down with a sponge
- Durable — no washing required for everyday care
- Fabric weight ca. 330 g/m² · available in 5 colours
